

COPPER SUN CHILD DEVELOPMENT CENTER

Phoenix, Arizona

CLIENT:

City of Phoenix

DESCRIPTION:

Todd & Associates, Inc. provided planning, design and construction documents for the new child development center for the City of Phoenix. The center is designed to accommodate 136 children ranging in ages from infants to five-year olds, and meeting the accreditation criteria for the physical environment of the National Association for the Education of Young Children. The center contains infant care rooms, toddler and two-year olds classrooms and areas for administration, activities, staff work and training. Various support functions are also planned and include 12,300 sq. ft. of both shaded and unshaded outdoor activities area with age-appropriate play equipment.
